Art Unit: 1626

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 to 11, 17 and 18 (all in part) and claims 12 to 16, drawn to compounds of the formula Ia and preparation thereof.

Group II, claim(s) 1 to 11, 17 and 18 (all in part), drawn to compounds of the formula Ib and preparation thereof.

Group III, claim(s) 1 to 11, 17 and 18 (all in part), drawn to compounds of the formula Ic and preparation thereof.

Group IV, claim(s) 1 to 11, 17 and 18 (all in part), drawn to compounds of the formula Id and preparation thereof.

Group V, claim(s) 1 to 11, 17 and 18 (all in part), drawn to compounds of the formula Ie and preparation thereof.

Group VI, claim(s) 19 to 21 (all in part), drawn to compounds of the formula XIVa and preparation thereof.

Group VII, claim(s) 19 to 21 (all in part), drawn to compounds of the formula XIVb and preparation thereof.

Group VIII, claim(s) 19 to 21 (all in part), drawn to compounds of the formula XIVc and preparation thereof.

Group IX, claim(s) 19 to 21 (all in part), drawn to compounds of the formula XIVd and preparation thereof.

Group X, claim(s) 19 to 21 (all in part), drawn to compounds of the formula XIVE and preparation thereof.

Art Unit: 1626

Group XI, claim(s) 22 to 29, 34, 38, 40 to 43, 50 and 52 to 56 (all in part), drawn to compounds of the formula XVa, pharmaceutical compositions thereof and preparation thereof.

Group XII, claim(s) 22 to 29, 34, 38, 40 to 43, 50 and 52 to 56 (all in part), drawn to compounds of the formula XVb, pharmaceutical compositions thereof and preparation thereof.

Group XIII, claim(s) 22 to 29, 34, 38, 40 to 43, 50 and 52 to 56 (all in part), drawn to compounds of the formula XVc, pharmaceutical compositions thereof and preparation thereof.

Group XIV, claim(s) 22 to 29, 34, 38, 40 to 43, 50 and 52 to 56 (all in part), drawn to compounds of the formula XVd, pharmaceutical compositions thereof and preparation thereof.

Group XV, claim(s) 22 to 29, 34, 38, 40 to 43, 50 and 52 to 56 (all in part), drawn to compounds of the formula XVe, pharmaceutical compositions thereof and preparation thereof.

Group XVI, claim(s) 30, drawn to a method.

Group XVII, claim(s) 35, drawn to a vaccine composition.

Group XVIII, claim(s) 36, drawn to a method.

Group XIX, claim(s) 37, drawn to a method.

Group XX, claim(s) 44, drawn to a method.

Group XXI, claim(s) 45, drawn to an assay method.

Group XXII, claim(s) 46, drawn to a wound dressing.

The inventions listed as Groups I to XXII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the compounds do not share a special technical feature because they do not have a common core.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or

Art Unit: 1626

invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must

Art Unit: 1626

be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

The examiner has required restriction between product and process claims. Where applicant elects claims directed to the product, and the product claims are subsequently found allowable, withdrawn process claims that depend from or otherwise require all the limitations of the allowable product claim will be considered for rejoinder. All claims directed to a nonelected process invention must require all the limitations of an allowable product claim for that process invention to be rejoined.

In the event of rejoinder, the requirement for restriction between the product claims and the rejoined process claims will be withdrawn, and the rejoined process claims will be fully examined for patentability in accordance with 37 CFR 1.104. Thus, to be allowable, the rejoined claims must meet all criteria for patentability including the requirements of 35 U.S.C. 101, 102, 103 and 112. Until all claims to the elected product are found allowable, an otherwise proper restriction requirement between product claims and process claims may be maintained. Withdrawn process claims that are not commensurate in scope with an allowable product claim will not be rejoined. See MPEP § 821.04(b). Additionally, in order to retain the right

Art Unit: 1626

to rejoinder in accordance with the above policy, applicant is advised that the process claims should be amended during prosecution to require the limitations of the product claims. Failure to do so may result in a loss of the right to rejoinder. Further, note that the prohibition against double patenting rejections of 35 U.S.C. 121 does not apply where the restriction requirement is withdrawn by the examiner before the patent issues. See MPEP § 804.01.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fiona T. Powers whose telephone number is 571-272-0702. The examiner can normally be reached on Monday - Friday 8:00 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph K. McKane can be reached on 571-272-0699. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
